NOTE FOR: Chairman, DCI Security Committee

FROM: [REDACTED]

SUBJECT: Items of Possible Interest

1. Maynard Anderson called and said that he has received the DCI Guidance papers on E.O. 12065 and Admiral Murphy thinks they are "super". Unfortunately, the Cryptologic Agencies in DoD have received guidance from NSA that says all COMINT is foreign information and thus does not have to be reviewed until 30 years from origin per E.O. 12065. This conflicts with DCI guidance. Anderson, for Admiral Murphy will be sending you a request asking that SECOM Compartmentation Subcommittee try to straighten out equities. It is proper request for SECOM, and we can handle. (C)

2. Following your meeting with [REDACTED] and me on the [REDACTED] report and NSA's position which seems to be causing problems, [REDACTED] drafted a rather detailed Executive Summary which presents a more balanced and documented case. [REDACTED] said he would try to use it. The [REDACTED] Investigation Briefing, scheduled as a special SECOM meeting this week is drawing considerable attention from members. We had to book a bigger room and change the time. It is now set for 1330 hours, Wednesday, 31 January, Room GK57, Headquarters. Word has been passed to members, SECOM and specifically to [REDACTED] (C)
